"Government Securities v Individual Security"

"A Financial Fairy Tale"

Once upon a time we had a "credit currency" of PAPER that promised to PAY its NUMBER VALUE in SILVER or GOLD. The coins contained their VALUE of SILVER. The ECONOMIC VALUE of this "MONEY" was PROTECTED and SECURED BY THE "LAWS" WHICH SET THE AMOUNTS, THE QUANTITY AND QUALITY OF GOLD OR SILVER, WHICH EACH "PAPER DOLLAR NUMBER" WOULD REPRESENT. In 1792 the "DOLLAR VALUE" of Silver was 371.25 grains of .999 fine Silver and Gold was 24.75 grains of PURE Gold. This PROTECTED the PUBLIC from being CHEATED FOR IF YOU DID NOT HAVE THE "DOLLAR AMOUNT OF GOLD OR SILVER IN YOUR POSSESSION", THEN "A PAPER DOLLAR" COULD NOT BE PRINTED AND PUT INTO CIRCULATION AS "MONEY"! This SYSTEM secures the VALUE OF THE PAPER MONEY, ELIMINATES DEBT and INFLATION, AND STANDS IN PROTECTION OF ALL PRIVATE PROPERTY AND "ECONOMIC DESTINY" OF THE INDIVIDUAL MEMBERS OF OUR SOCIETY.

Today the PAPER NUMBER VALUE of CURRENCY and COIN is an INTEREST BEARING DEBT which the PUBLIC must PAY for IT IS ALL BORROWED from The Federal Reserve System, A PRIVATELY OWNED BANK!

There are MULTI-TRILLIONS of DEBT by BORROWING(?) "CREDITS" which are CREATED OUT OF NOTHING by THE BANK(?) THEN ENTERED INTO THE "CHECKING ACCOUNT" OF THE GOVERNMENT AS A DEPOSIT AND THIS ALONE "CREATES" THE PUBLIC DEBT! (this is the truth and not a fairy tale; see the letter of Congressman Wright Patman)

"Moreover, if a government goes off the gold standard (or silver) completely, that is, refuses to exchange certificates and notes for specie(gold/silver), this means that the AMOUNTS of "NOTES" and "CREATED DEPOSITS" can be INCREASED INDEFINITELY BECAUSE THESE ARE NO LONGER LIMITED BY THE LIMITED AMOUNTS OF GOLD/SILVER RESERVES."

from; "Tragedy & Hope" by C. Quigley, p. 60.

The above gives you the source of our(?) DEBT and INFLATION in part, but the LIONS SHARE of our economic problems comes from the ABUSE and MISUSE of "GOVERNMENT SECURITIES" by the "CREATED" Administrative Agencies of the Federal Government.

In the attached G.A.O. letter it is outlined that there "EXISTS a POTENTIAL of a MAYBE AGENCYS DEBT"(contingent, it might be?) roughly amounting to \$6.8 Trillion which did not include the U.S. Treasurys borrowing upwards of \$500 Billion yearly to finance the interest due on Government Securities by obtaining loans worldwide using more of the Government Securities to create more debt to pay-off a prior DEBT!
